OK, thanks Janet!

So DNR has the land there? The city doesn't have a position on getting rid of them?

I think that's probably all there is. I'm sure he talked about it in court, but I think this is probably the only written description of them. You could call DNR and find out if they have plans to remove them. The person I was dealing with was Melissa Ferris, but that was years ago.

Thanks Janet! Am I still coming to visit tomorrow? Is there more than this to find?

-Josh

Josh,

In paragraph 5 on the attached Declaration, Bill Sesko talks about the "pontoon".
